

THIAGO SOUSA FARIAS

SDET | QA Automation Engineer

Brazil (Remote) | +55 98 98273-3812 | thiagosfarias.mt@gmail.com | linkedin.com/in/thiago-farias-b09280163

SUMMARY

SDET and QA Automation Engineer with 5+ years of experience across software engineering and test automation for enterprise and distributed systems. Specialized in scalable E2E automation, Playwright migration, API validation, CI/CD optimization, automation reliability, and AI-assisted testing workflows for modern enterprise applications.

TECHNICAL SKILLS

Languages:	Java, TypeScript, JavaScript, Go, Ruby, Groovy, C++
Test Automation:	Playwright, Selenium, Capybara, JUnit, Mockito
Backend & APIs:	REST APIs, Microservices, API Validation
DevOps & Cloud:	Docker, CI/CD Pipelines, Git, GitHub Actions
Testing:	E2E, Integration, Load, Unit Testing, Test Automation Frameworks
Methodologies:	Agile, Scrum, Distributed Systems

EXPERIENCE

QA Automation Engineer (SDET) — Zallpy (BMW Group) | Jun 2024 – Present

- Maintained and improved enterprise E2E automation suites using Selenium, Ruby, and Capybara
- Contributed to the migration of legacy automation frameworks to Playwright with TypeScript
- Integrated AI-driven MCP agents to improve test creation, debugging, and flaky test analysis
- Improved automation reliability through synchronization, retries, resilient locators, and test isolation
- Contributed to CI/CD pipeline reliability and API validation workflows

Backend Software Engineer — Moskit CRM | Sep 2022 – Jun 2024

- Developed backend services using Java, Go, and Groovy for distributed systems
- Implemented unit, integration, and load testing strategies for microservices environments
- Validated Docker-based applications and business-critical backend services
- Collaborated with cross-functional agile teams to improve system stability and validation processes

Full Stack Software Engineer — Pulse | Jun 2021 – Sep 2022

- Developed full-stack features using Java and JavaScript
- Implemented unit and integration testing using JUnit and Mockito
- Developed performance-sensitive C++ integrations and contributed to system maintenance

Full Stack Developer (Trainee) — Agrottools | Jan 2021 – Jun 2021

- Contributed to backend and frontend development using Java and JavaScript

EDUCATION

B.S. Information Systems — IFMA | Graduated: 2022
